About ChangingTIDE

ChangingTIDE aims to address the democratic threat of disinformation by combining awareness-raising, media literacy education, youth empowerment and participatory dialogue. The project equips participants with the skills necessary to critically analyse and evaluate media while fostering inclusive exchanges between citizens, experts and policy-makers on disinformation challenges.

ChangingTIDE places a strong emphasis on youth empowerment, supporting young people to develop critical thinking, media literacy and civic engagement, and enabling them to act as multipliers within their communities. Through training, peer learning and participatory formats, the project seeks to build long-term democratic resilience and social cohesion, while addressing the different ways in which disinformation manifests across national and local contexts in the EU.

About oiip

The Austrian Institute for International Affairs (oiip) is an independent research institute that was founded in 1979 and has been committed to research in the field of international politics ever since. It is Austria's leading research institute on international politics and is situated at the juncture between academic and policy-oriented research. Aside from academic research and publishing at the international level, the institute's staff are also engaged in teaching, policy consultancy and raising public awareness on a variety of important issues.
